***“This is a very significant discovery for the Company....and we are on the definite path to increasing shareholder value” Robert Eadie, CEO & President***

# BIG BEAR PROJECT

Located in the Nechako Plateau's prolific Omineca Mining District, the property consists of 31 claims covering approximately 14,366 hectares; access is via maintained FSR roads roughly 100km Southwest of Vanderhoof, British Columbia. The Big Bear property is strategically located between New Gold Inc.'s Blackwater property, and their newly acquired Capoose property. Big Bear is considered highly prospective for a geologically congruent occurrence to that observed at New Gold's Blackwater property; the deposit is characterized as a low sulphidation epithermal and/or sub-volcanic porphyry to transitional mineralization system.

The Blackwater property hosts a proven and probable resource of 8.17 million ounces of gold and 60.8 million ounces of silver (344,400 million tonnes at an average grade of 0.74 g/t gold and 5.5 g/t silver) with an additional measured and indicated resource of 1,292,000 ounces of gold and 7,821,000 ounces of silver (55,487,000 tonnes at 0.72 g/t gold).

## Management Team

### Robert Eadie - CEO, President & Director

In the past 20 years, Mr. Eadie has been actively involved in public resource companies raising over \$100 million dollars for various exploration and development projects around the world. Over the years, Mr. Eadie has built an impressive network of contacts in Europe, North America and Asia and has established a reputation as the catalyst behind various successful startup resource companies. He brings extensive marketing and public relations expertise to the board and makes executive decisions based on long term sustainable growth.

### David Gunning, P.ENG. - Director

Mr. Gunning is a graduate of the University of British Columbia and holds a B.A.Sc., in Mining and Mineral Process Engineering (mining option). A member of the Association of Professional Engineers and Geo-scientists of British Columbia, Mr. Gunning is a practicing mining engineer with over 30 years of experience in mineral exploration, development and operations in North and South America, Europe and Asia. Since 1996, he has provided operations and project management, resource estimations and property evaluations for various mining companies, primarily for precious metal projects.

### Gary Arca, CA - CFO, President & Corporate Secretary

Mr. Arca is a Chartered Professional Accountant and has been a member of the Canadian Institute of Chartered Professional Accountants and British Columbia Institute of Chartered Professional Accountants since 1980. Mr. Arca was a partner with two separate public accounting firms from 1996 to December 2005. Mr. Arca has extensive experience dealing with public companies and, since 2005, has served as a director of many publicly traded resource companies.

### Ken Sumanik - Director

Mr. Sumanik (M.Sc.) is an environment and land specialist, with over forty years experience in logging and mining impact assessment and evaluation. From 1989 to 1999, he held the position of Vice President of Environment and Land Use for the Mining Association of British Columbia. Mr. Sumanik then served as Assistant to the Minister for Mining in British Columbia before becoming involved with publicly listed junior mining companies.

and 4.4 g/t silver), and an inferred resource of 293,000 ounces of gold and 1,483,000 ounces of silver (12,871,000 tonnes at 0.71 g/t gold, and 3.6 g/t silver)

The Capoose property hosts an inferred resource of 334,000 ounces of gold and 19,948,000 ounces of silver (23,591,00 tonnes at an average grade of 0.44 g/t gold and 26.3 g/t silver) (Source: Resource Statement dated December 31, 2015 at Newgold.com)
